

★ We believe in magic ★

Once upon a time at Consett Infant School, Maisy found a dark circle in the grass and said "this is where the fairies live, we need to protect them"

The children came together to work as a team, to create this amazing fairy world, which was protected by the Children's good friends, the garden dinosaurs.

The next day, the children couldn't believe their eyes, a trail of magic dust had been left, this was protected and a fairy bridge was made. The shiny, glittery trail led to the garden stile, where 2 doors hid.

Behind the 2 doors is a empty space, the children really do think this is where the fairies live.

Now for the next chapter, we need your help.

To fill this empty space we are asking, for you and your child to work together over the half term break to create some fairy houses, doors, gardens or maybe something else. Together we will create an fairy world for the children to explore. we look forward to seeing your creations 🌸🍄🐸🦎★★★★
